C. sh ip dhcp pool
D. sh ip dhcp server statistics
Answer: C

NEW QUESTION: 2
You need to upgrade the SharePoint 2013 corporate farm.
Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Answer:
Explanation:

Explanation

Scenario: Boston. You must upgrade the existing SharePoint farm to SharePoint 2016. Employees who use the farm must be able to continue using the farm during the upgrade process.
To upgrade from Microsoft SharePoint Server 2013 with the March 2013 Cumulative Update to SharePoint Server 2016, you use the database-attach method. In the database-attach method, you first create and configure a SharePoint Server 2016 farm. Then you copy the content and service application databases from the SharePoint Server 2013 with the March 2013 Cumulative Update farm, and then attach and upgrade the databases. This upgrades the data to the new version. Site owners can then upgrade individual site collections.
