NEW QUESTION: 1

Your client has found inconsistencies in their Time to Hire reporting. Recruiters are manually tracking each key hiring step in the system after the event occurs. What should you do to improve the accuracy of their reporting? (Choose the best answer.)

- A.** Reduce the number of statuses in the Candidate Selection Workflow to only those that are absolutely necessary.
- B.** Enable auto-progression for all steps in their Candidate Selection Workflow so that the system can progress candidates automatically to each step.
- C.** Activate event modification on the statuses so that recruiters can edit the actual time of the event at the time they update the status.
- D.** Reconstruct the report to pull the total time period from Application to Hire Date.
- E.** Activate event data entry and modification on the statuses
