NEW QUESTION: 4

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You have an In-Place Hold that was implemented by running the following command:

```
New-MailboxSearch -Name "Hold-ProjectX" -SourceMailboxes "User1".
```

You are notified that the In-Place Hold is no longer required. You need to ensure that the mailbox data can be deleted by using retention policies.

Solution: You run the Remove-MailboxSearch "Hold-ProjectX". Does this meet the goal?

- A. Yes
- B. No

Answer: B

Explanation:

A mailbox search that is used for In-Place Hold cannot be removed. The In-Place Hold must first be disabled by clearing the Place content matching the search query in selected mailboxes on hold check box on the In-Place Hold settings page or by setting the InPlaceHoldEnabled parameter to \$false in the Shell.
