B. Going through dust bin

C. performing forensics on the deleted items

D. Running through another person's garbage for discarded document, information and other various items that could be used against that person or company

**Answer: D**

Explanation:

The answer : Running

through another person's garbage for discarded document, information and other various items that could be used against that person or company. Dumpster diving is done with malicious intent. A synonym for Dumpster Diving is Data Scavenging.

The following answers are incorrect:

Going through dust bin will not give you access to sensitive information. It was not the best choice.

Performing forensics on the deleted items is related to data remanence which means files were not destroyed properly and they can be recovered using specialized tools.

Performing media analysis is not related to going through rubbish in a dumpster.
