NEW QUESTION: 1

You need to configure navigation for publishing sites. What should you do?

- A. Modify the site settings to use managed navigation.
- B. Modify the site settings to use structural navigation.
- C. Create a managed path for the site collection.
- D. Configure alternate access mapping.

Answer: A

Explanation:

Explanation/Reference:

Scenario:

For publishing sites, use only friendly URLs that do not contain anything other than the direct address.

Avoid URL constructions such as /Lists/Posts/Post.aspx?ID=568.

Blue Yonder has an existing managed metadata service containing managed metadata and content types.

The content types have workflows. You create a new managed metadata service connection for the Wingtip Toys web application.

Testlet 1

Background

General Background

You are a SharePoint administrator for A Datum Corporation. A Datum is a large legal firm with offices in Chicago, New York, and London. A Datum is merging with a smaller legal firm named Fabrikam, Inc.

Technical Background

A Datum has an Active Directory Domain Services (AD DS) domain named adatum.com. The domain contains an Active Directory Rights Management Services (AD RMS) server.

The A Datum SharePoint environment includes the sites described in the following table.

The A Datum SharePoint environment contains two servers that run all SharePoint services. The servers run Windows Server 2012 and are members of the domain. A third-party file-level antivirus application runs on all servers in the domain. The adatum.com farm uses Microsoft SQL Server 2012 for the SharePoint databases.

A Datum is planning a three-tier SharePoint farm to replace the existing farm. A firewall will be placed between each tier. All servers must be virtualized unless otherwise specified. The following servers are available for the new SharePoint environment:

All user accounts are stored in and maintained by using Active Directory. The My Site portal and document portal SharePoint sites receive user and group membership information by using Active Directory synchronization. New users often have to wait more than 24 hours before they can view their user profile information.

Fabrikam has an AD DS domain named fabrikam.com and a single-server SharePoint environment.

Web Applications

A new remote web application named App1 will be hosted in the adatum.com domain. App1 will require access to SharePoint resources in the fabrikam.com domain. SharePoint administrators in the fabrikam.com domain must be able to administer App1 by using Windows PowerShell.

Technical Requirements

You must meet the following technical requirements:

Fabrikam users must be able to directly access internal SharePoint resources in the adatum.com

domain.

Datum users must not be able to access resources in the fabrikam.com domain.

All documents relating to the merger must contain a barcode, and must be protected from distribution.

Authenticated users must not be prompted for credentials when they access Appl.

Users in the adatum.com domain must be able to access all SharePoint sites the same day they

receive their Active Directory account credentials.

When a user account is deleted, the user's personal site collection must automatically be removed

within 12 hours.

The antivirus application must not scan SharePoint directories.

When migrating the SharePoint environment, you must meet the following requirements:

The application and database servers must not be accessible from the Internet.

The database servers must accept connections only from the SharePoint servers.

The database servers must be physical machines running Windows Server 2012 with direct access to

storage.

The database servers must be configured for redundancy.

All database transaction logs must be sent off-site.

All SharePoint installation prerequisites must be installed offline.

NEW QUESTION: 2

You are short of 6 December EURODOLLAR futures contracts at 99.50. Yesterday, the closing price was 99.35. Today's closing price is 99.105. What variation margin will be due?

- A. You will have to pay USD 3,675.00
- B. You will receive USD 3,675.00
- C. You will have to pay USD 5,925.00
- D. You will receive USD 5,925.00

Answer: A

NEW QUESTION: 3

What is the first step in devising an effective supply chain

strategy ?

- A. increase product variety
- B. consider the nature of demand for products
- C. make demand predictable
- D. decrease market standard for lead time
- E. analyze the product life cycle

Answer: B
